# POD KEYS 2011

Dear key duplicator,

this booklet is meant to be a quick guide to complete the Car Keys 2011 catalogue. Its purpose is to allow the key specialist to easily identify all the so-called KeyLine "transponder pod keys", which are distinguished between cap keys (e.g. ARI505TK-1) and shell keys (e.g. FT1505TK-5).

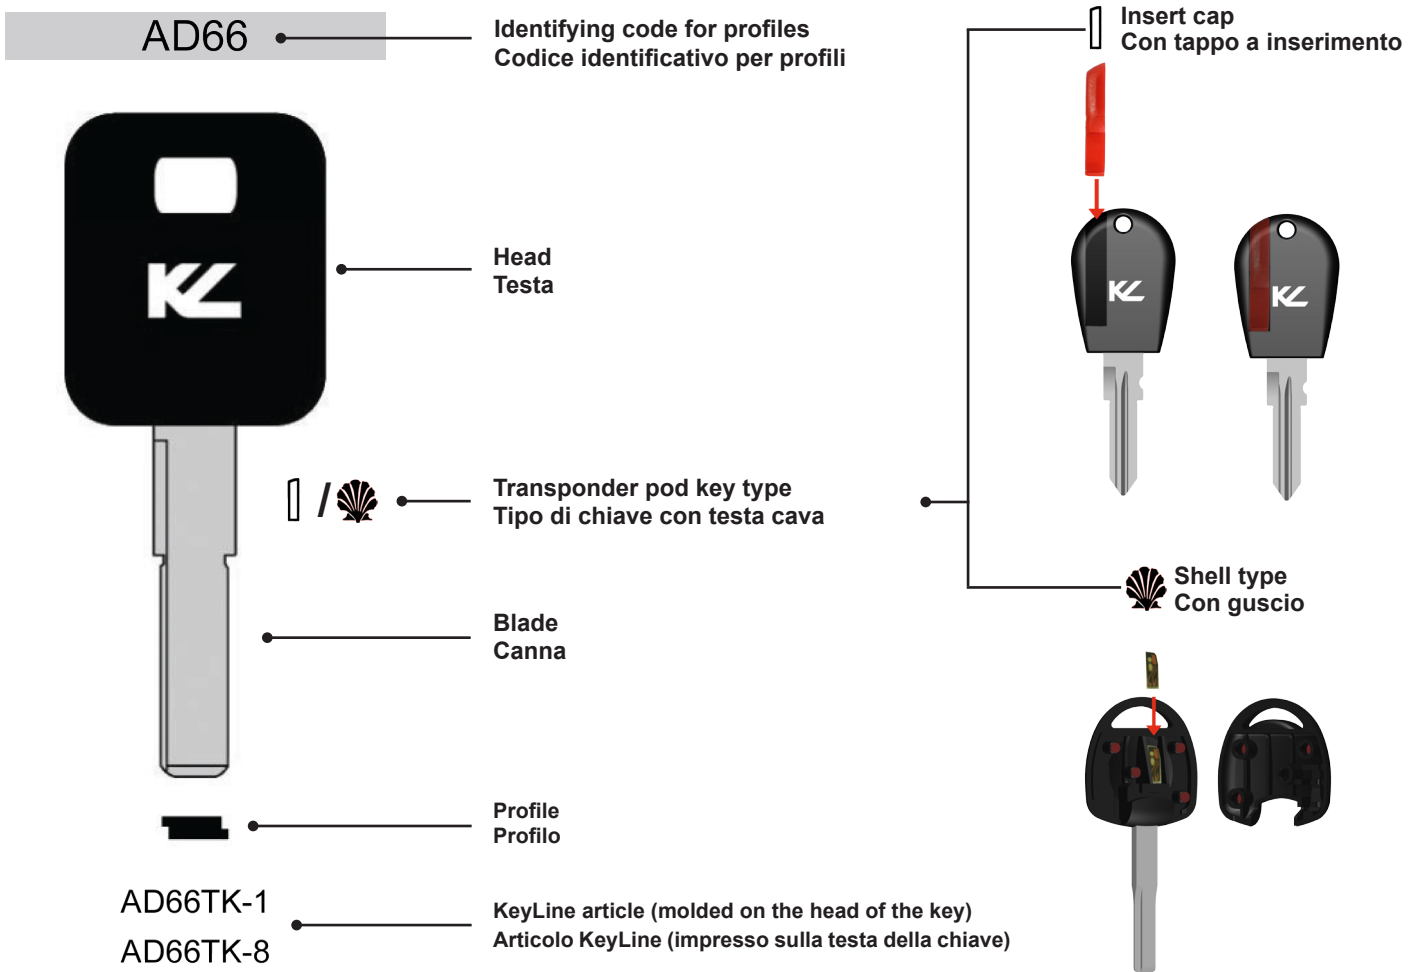

The keys are ordered alphabetically according to the profile and can be fitted with all the transponders indicated below the key image. The index in the second part of the booklet allows to identify for each car model clonable through transponder pod keys the KeyLine profile, the transponder type and code, and the page of the booklet where you can find the drawing of the key.

Gentile duplicatore di chiavi,

questo fascicolo vuole essere una guida rapida a completamento del catalogo Car Keys 2011. Il suo obiettivo è di permettere allo specialista di identificare facilmente tutte le chiavi KeyLine denominate "pod keys", vale a dire con testa plastificata cava, distinte tra chiavi con tappo (ad esempio ARI505TK-1) e chiavi con guscio (ad esempio FT1505TK-5).

Le chiavi sono ordinate alfabeticamente in base al profilo e sono in grado di accogliere tutti i transponder elencati nel codice riportato sotto la chiave dopo la dicitura "TK-". L'indice, collocato nella seconda parte del fascicolo, consente di individuare agevolmente per ogni modello di auto, clonabile mediante chiavi con testa cava, il profilo KeyLine, il tipo e il codice del transponder e la pagina del fascicolo dove trovare il disegno della chiave.
